

# PARAGON® 3000

Extreme-Pressure, High-Performance Grease

Manufactured by Texas Refinery Corp

*Protects Under Heat, Load, Impact & Water*

## Why It Works:

- Handles extreme pressure and heavy shock loads
- Passes 100 lb Timken OK Load Test
- Resists wear from constant impact and vibration
- Maintains lubrication under high heat
- Stays in place — won't thin, melt, or run out

## Water & Heat Resistant

- Resists water washout & displaces moisture
- Helps prevent rust, pitting & corrosion
- Dropping point approx. 630°F
- Won't harden, cake, or bleed out

## Built for Demanding Equipment

Used in:

- Construction & earth-moving equipment
- Agricultural equipment
- Mining & quarry operations
- Paper mills & industrial plants
- Cement, asphalt & processing facilities
- Logging, trucking & heavy transport

## Why Operators Use It:

- ✓ Extends life of pins, bushings & bearings
- ✓ Reduces downtime & component failure
- ✓ Performs in wet, dirty, & corrosive environments
- ✓ Reduces relubrication frequency

**If equipment runs hot, heavy, wet, or dirty — this grease is built for it.**

### Bottom Line:

Paragon® 3000 isn't just grease — it's equipment protection.

## Questions? Want to Try It?
